An Introduction to
Descendants of Thomas Winstead (D-Branch)

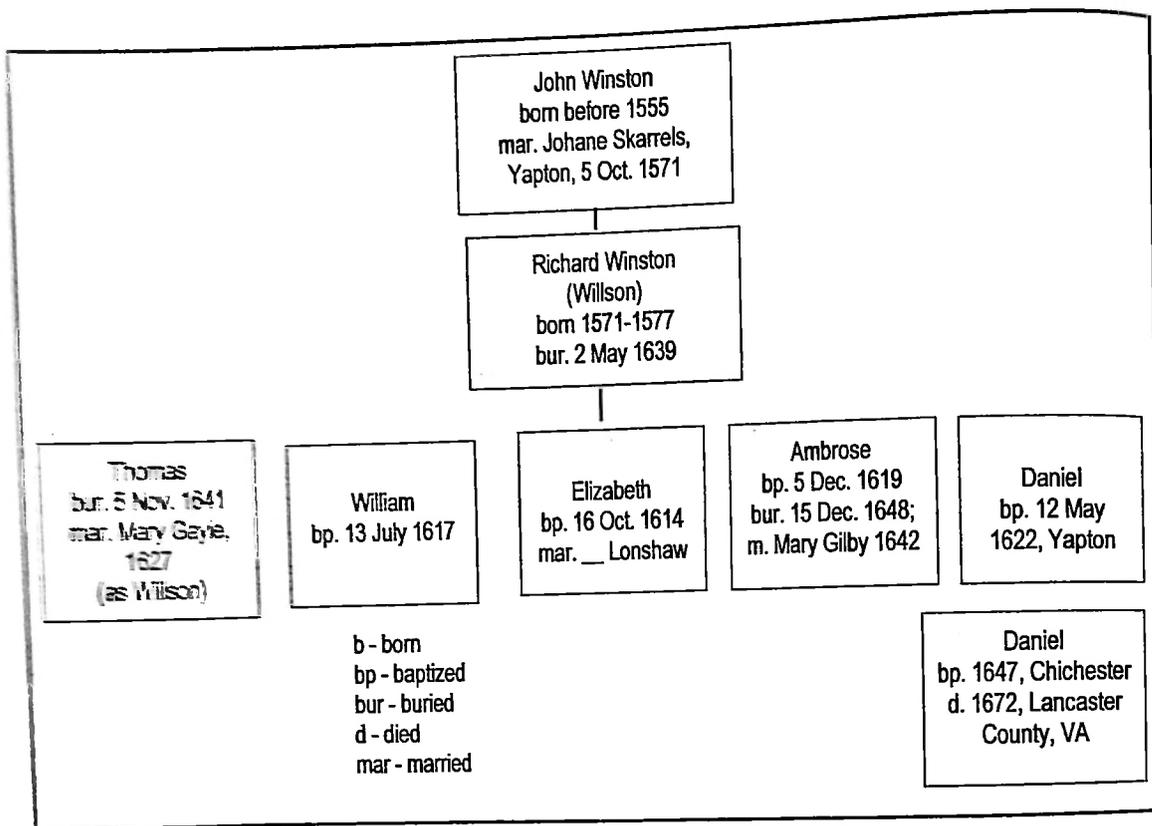

These volumes expanding and updating Michael Kalen Smith's *Winstead Family in America* were undertaken with his permission. In 1986 he had about 5,000 names in that edition; now there are more than 39,000.

We credit submitters of particular lines where their contributions are known. Any overlooked chronicler has been unintentional. Please call such omissions to our attention.

Please continue to send corrections and/or additions to me. We want this compilation to be as nearly correct as possible and to include as many 'cousins' as we can find. Thanks for helping.

The Earlier Winstons/Winstones/Winsteads

First clues of the Winstead ancestry came from the Northumberland County (VA) Order book for years 1678-1698 (see p. 544), when Samuel had his land surveyed and sold it. Carolyn Jett, a Heathsville, Virginia genealogist determined that Samuel's mother had remarried a Northumberland man after Samuel's father died in 1672. The earlier records were written "Winston" and occasionally "Winstone."

Joy Moulton of Columbus, Ohio, a certified genealogist, then traced Samuel's father, Daniel, through English records to Yapton in Sussex Parish. She notes in her 7 Mar. 1992 report that Willson was used as an alias for Winston, especially to identify a male when his spouse was an heiress. Other examples were men who had inherited maternal estates.

We now have copies of the wills of Daniel's great grandfather, John,⁽¹⁾ his uncle, Thomas,⁽²⁾ and his grandmother, Ann.⁽³⁾ With these documents in hand we deduce some facts about this Winston family in the mid-1600's, mainly: There were a number of Richard Winstons in the Yapton area,

and our ancestor was the eldest son of the John Winston who died in Yapton on 30 Sept. 1585 and who was mentioned in the latter's will.⁽¹⁾

In those days males were required to sign the Protestation Return and, fortunately, some of these still exist. On the 1641 list for Yapton, Daniel's father, also named Daniel, and the older Daniel's brother, Ambrose, appeared side-by-side. Their brother Thomas also resided in Yapton.

Our Daniel was baptized on 6 June 1647 in St. Peter-the-Great Parish at Chichester, 10 miles west of Yapton. Maybe a family move took Daniel to Chichester, or perhaps he enrolled there in a tailor's apprenticeship program. This is an obvious conclusion, as Daniel's uncle was a tailor also, according to his will. To the best of our knowledge, no wills have ever been found for William or Ambrose, so it cannot be determined if all males in the family were tailors. Guild records are not extant for Chichester for the 1600's and, therefore, it was not possible to verify that Daniel Winston apprenticed there. *(In those days, custom dictated that one who entered an apprenticeship before the age of 21 would not marry prior to attaining the age of majority).* Daniel would have turned 21 in the late 1600's, and he was in court records in Lancaster County, Virginia by 1671. By then he was a tailor.

Daniel's only child appears to have been Samuel Winston/Winstead, born about 1671. He and his parents lived on Morratico Creek in Lancaster County, which later became part of the Commonwealth of Virginia. About this same time, Daniel bought 50 acres of land from one Brian Stott.⁽⁴⁾ This purchase adjoined land owned by Daniel's neighbor, John Simpson.⁽⁵⁾

Daniel died soon thereafter and Samuel's mother, Elizabeth, became administrator of the estate. Simpson and another neighbor, Stephen Tomlyn, acted as securities for the estate, and Simpson also became Samuel's guardian.

When Elizabeth remarried in 1673, young Samuel got a stepfather, Timothy Green of Northumberland County, and Timothy's promise, made to Simpson, that the boy would receive 150 acres of land, a young mare, two young cows, a heifer, a calf, an iron pot, rug, and a feather bed, complete with bolsters and blanket.⁽⁶⁾ This arrangement was unusual in that Timothy already had a son, Timothy Green, Jr., born in 1671, who would inherit all of his father's land except the usual one-third dower the wife got. Ole Timothy had 445 acres, so the 150 acres he promised Samuel was really Elizabeth's dower. Timothy did, in fact, make a gift deed for Samuel's 150 acres in 1674.⁽⁷⁾

Timothy and Elizabeth had their first son, Farnfold Green, in 1674. Two years later their second son, Titus, was born.⁽⁸⁾ Timothy died in 1677 and Elizabeth, now twice a widow, was again administrator of the estate.⁽⁹⁾ Samuel now received the other things promised him, the livestock and other items of personal property.

In 1690, at about 19 years of age, Samuel surveyed his land.⁽¹⁰⁾ Then he reconveyed to Brian Stott the 50 acres of land purchased from Stott, "it being the same land that formerly belonged to Daniel Winston."⁽¹¹⁾

Elizabeth's third marriage was to **Gilbert Harrold**,⁽¹²⁾ a widower with three small children. In that household, at the time of their marriage in 1682, were these children: Timothy Green, Jr., age 11; Samuel Winston, age 11; Farnfold Green, age 8; Titus Green, age 7; James Harrold, age 3; Mary Harrold, age 2, and Gilbert Harrold, newborn.

Notes:

1. Birthdates in the compilation which came from census records are approximations.

2. Plus marks (+) to the left of the children's numbers indicate that a family group will follow for that person.
3. The compilation that follows originally was made up using Samuel (b. 1701) as the progenitor of the Winsteads and he was assigned #1. This had already been done when Samuel (b. 1671) was found to have been born in Virginia. The latter has been assigned #0, and only one child is known to have been produced by this couple.
4. The numbering system used is the Henry System, originated by Reginald Henry in the 1920s. The first progenitor is number 1 (Samuel, b. 1701) and his children are numbered as 11, 12, 13 and so on. If there are more than nine children, the tenth would be "1A", the eleventh "1B", etc. The numbers provide two indicators. First, each digit represents a generation away from number 1. Second, the number indicates the birth order within a family for a descendant.

For example, my ID number is 1392135-3. Reading the digits from right to left: the last digit, 3, is followed by "- sign"; this indicates I have no family (i.e. children of my own). The next digit to the left is my father's number. The next digit is my grandfather, Abel Thomas Winstead, #139213, etc. The second digit, 3, shows that I belong to the 3 Branch from Samuel, b. 1723, who was the 3rd child of the progenitor. The direct descendancy line can be either through the father or the mother.

WINSTEAD DEATH (Baltimore Area)

Name: Willard Redford Winstead (#1D4611-6)
Residence: 6501 Maplewood Road
Idlewyld (NW suburb of Baltimore), Maryland 21239
Phone No: (410) 377-9442

The notice below appeared in the 8/28/97 issue of *The Sun*. It is obvious that Willard was originally from Virginia, since he was being buried in Cedar Hill Cemetery, Covington, Virginia. The cemetery appears to be in Alleghany County, Virginia, near I-64, adjacent to the West Virginia border.

Note: I personally spoke, on the phone, with Mr. Winstead in 1994/95 in an effort to link him with some of the Virginia WINSTEADS which Martha Winstead, of South Bend, Indiana, and I have been working on for a number of months/years. It is a pity that the obit doesn't name his brothers and sisters, or even his children, but that is how it goes. He firmly expressed his opinion, "I'm not interested in genealogy and don't care to be bothered." I thanked him and promptly hung up. I will make an effort, by contacting the funeral home, to see if I can make some contact with one/some of his relatives. See obit below.
